

Dear PREP and ISPPP 2017 participants,

JNC America Inc, manufacturer and global supplier of Cellufine chromatography media, is excited for this year's symposium with a great scientific program.

We would like to cordially invite you to the following events we will be hosting throughout the symposium at our [booth #105](#):

When Purity is Paramount...Cellufine™ Media Delivers

Oral Presentation

(PREP)

Development of a Novel Anionic Mixed Mode Resin by Optimization of a Primary Amine Surface Coating by Controlled Hydrophobic Substitution on a Stable Cellulose Based Bead.

Yoshihiro Matsumoto¹, Yasuto Umeda¹, **Malcolm G. Pluska**², Shigeyuki Aoyama¹,

¹ JNC Corporation, Yokohama, JAPAN; ² **JNC America**, Littleton, MA, USA

Date: Monday, July 17, 2017 / Time: 4:00 PM / Place: L-117

(ISPPP)

A New Anionic and Butyl Mixed Mode Resin for Removal of mAb Aggregates in a Flow through Downstream Polishing Format after Protein A Capture.

Yoshihiro Matsumoto¹, Shigeyuki Aoyama², **Malcolm G. Pluska**³, Yasuto Umeda¹, ¹JNC Japan, Yokohama, JAPAN; ²JNC Japan, Tokyo, JAPAN; ³**JNC America, Littleton, MA, USA**

Date: Thursday, July 20, 2017 / Time: 4:10 PM / Place: L-127

Poster Sessions

(PREP)

A new anionic and butyl mixed mode resin for removal of Mab aggregates in a flow through downstream polishing format after Protein A capture."

Date: July 17-18 2017 / Place: Millennium Exhibit Hall, 2nd floor

Booth Exhibition

(PREP)

Date: July 16th(Sun) – 18th(Tue)

Sunday at 6:00-7:30pm

Monday at 10:15am-5:15pm

Tuesday 9:20am-3:30pm

Place: booth # **105**

Cellufine™ chromatography media for purification of various bio molecules

Looking forward to seeing you,
