Emergency overview
May be harmful if inhaled and ingested.
May cause eye and skin irritation.

4. First aid measures

General advice : Wash off immediately with soap and plenty of water. In the case of inhaling dust and/or fumes, use self-contained breathing apparatus and dust impervious protective suit. Use personal protective equipment.

Inhalation : Move victim to fresh air. If breathing is difficult, give oxygen. If irritation persists, consult physician.

Eye : Remove any contact lenses at once. Fresh eyes well with flooding amounts of running water for at least 15 minutes. Assure adequate flushing by separating the eyelids with sterile fingers. If irritation persists, consult a physician.

Skin	: Remove contaminated clothes and shoes, rinse skin with plenty of water or shower. Use soap to help assure removal. If irritation persists, consult a physician.
Ingestion	: Rinse mouth and give plenty of water to dilute the substance. Never give anything by mouth to an unconscious person. Consult a physician.
Protection to first-aides	
Note to physician	: Treatment may vary with condition of victim and specifics of incident.
