

Notification: Discontinuation of Enclosure of Instruction Manuals

Dear customer

We would like to inform you about the subject line.

Until now, all MC-Media Pad products were shipped with an instruction manual, but from the perspective of environmental protection (paperless), this will be discontinued and replaced with a downloadable version on our website.

These changes will be applied after manufacturing of products on January, 2024.

We will continue to further promote environmental initiatives in the future.

Thank you for your understanding.

Best regards
